Vuelve América Central a asomarse al abismo?

La situación política y social en América Central vuelve a ser extremadamente crítica, con retrocesos democráticos, connivencia con el narco y episodios de violencia preocupantes. Los esfuerzos y compromisos para democratizar la región en la década de 1990, tras las guerras civiles de la década anterior, se han ido diluyendo con el nuevo milenio hasta producirse crisis múltiples.

Variations of Peace in Colombia

Peace and conflict are not the same across territories and scales. Conceptualizing peace as a process based on three core functions of society and related norms allows us to identify variations in peacebuilding needs and perceptions. The entanglement of different scales shapes the diversity of peace and highlights the opportunities and challenges of peacebuilding and related norms, along with their diffusion and contestation.

Die Welt (be-)sucht Brasilien

Warum Europa gut daran täte, Brasilien auf Augenhöhe zu begegnen

Brasilien bereitet sich auf den G20-Gipfel im November in Rio de Janeiro vor. Die mittlerweile neuntgrößte Volkswirtschaft der Welt ist für Deutschland und Europa ein Schlüsselpartner, ist sich dieser Rolle auch bewusst und agiert betont selbstbewusst. Die Präsidentschaft von Javier Milei in Argentinien

100 erste bewegte Tage

Am 10. Dezember 2023 trat der Libertäre Javier Milei sein Amt als Staatspräsident von Argentinien an. Der Anti-System-Politiker konnte sich gegen die traditionellen politischen Kräfte durchsetzen und ließ seinen Wahlkampfversprechen unmittelbar nach der Vereidigung Taten folgen. Nach 100 Tagen an der Macht ist das Panorama in jeglicher Hinsicht komplex: Die Probleme der Regierungsführung ohne Mehrheiten im Parlament sind evident, trotz langsamer Erfolge im Bereich der Inflationsbekämpfung bleiben die wirtschaftlichen Herausforderungen enorm. Kritiker befürchten eine Explosion der Armut sowie soziale Unruhen.
