Lateinamerika

Nr. 15/2026, 15.09.2026 – 29.09.2026

SWP-Informationsservices

Katrin Schumann

Der SWP-WebMonitor Lateinamerika ist ein kompaktes Informationsprodukt mit ausgewählten Hinweisen auf aktuelle Dokumente und Analysen zu relevanten Fragen und Entwicklungen der Region in Bezug auf Verteidigungs- und Sicherheitspolitik, Außenpolitik, Wirtschafts- und Handelspolitik sowie Innenpolitik.

Bei allen Titeln gibt es einen Link, oft direkt zum Volltext. Grundlage der Erstellung ist ein überwiegend festgelegtes Set an diversen Webquellen (europäische, US-amerikanische und lateinamerikanische Think Tanks). Hinzu kommen die im jeweiligen Zeitraum mit Lateinamerika und der Karibik beschäftigten Beratungsabläufe des Deutschen Bundestages. Der WebMonitor Lateinamerika erscheint in der Regel ein- bis zweimal monatlich.

Fortifying USMCA through US-Mexico investment screening coordination

One of the biggest blind spots in the US-Mexico-Canada trade agreement is its treatment of capital and foreign investment screening. The current review presents an opportunity to address this and build a safer North America.

Recasting American Power in Latin America

Washington needs to recognize that influence in the Western Hemisphere comes from presence, delivery, and reliability. It also must recognize that while the United States remains the key external

actor, it no longer operates in a permissive environment and cannot presume deference from regional players who have other options, namely China.

Democracy Paradox Podcast | Transcript

Noam Lupu Says Support for Democracy Is Growing in the Americas, But Not Necessarily Liberal Democracy

Support for democracy is rising across the Americas after more than a decade of decline, but what kind of democracy do citizens actually want? Noam Lupu, director of Vanderbilt University's Center for Global Democracy and LAPOP Lab, joins Justin Kempf to discuss findings from the latest AmericasBarometer and Pulse of Democracy. They explore why better economic and security conditions may be strengthening democratic support, even as distrust of political institutions persists; how ci-

tizens can embrace democracy while supporting illiberal leaders; and what attitudes toward representation, inequality, generational change, and political polarization reveal about the future of democracy across the region.

China's Anxieties in Latin America: What Mobility and Knowledge Mean for US Strategy

US strategy in Latin America concentrates on the visible assets of Chinese influence: ports, mines, and loans. Yet that influence depends on a human element, and Beijing remains anxious about both the mobility of its people into and through Latin America and the expertise needed to navigate the region. These are the dimensions it finds hardest to manage, and where the US holds advantages that are real but perishable. Converting them into leverage requires deliberate policy, not coercion.
