Vormarsch der radikalen Rechten

Nach dem ersten Wahlgang in Brasilien ist zu befürchten, dass sich auch dort der Trend aus ganz Lateinamerika fortsetzt: Zuletzt hat eine ganze Reihe linker Regierungen Wahlen gegen stramm rechte Kandidaten verloren. Die wollen hart erkämpfte soziale Fortschritte wieder zurückdrehen. Sie gehen aber von Land zu Land unterschiedlich vor, ein gemeinsames Erfolgsrezept haben sie nicht.

Malvinas, una causa para consumo interno

El gobierno argentino hizo un giro diplomático para internacionalizar el reclamo de las islas. La apuesta, montada sobre el enojo de Trump con el Reino Unido, deja costos diplomáticos sin avances en la soberanía. ¿Cuál es la estrategia de Milei?

Brasil: el giro a la derecha va más allá del balotaje

El PL de Bolsonaro será el bloque más grande del Senado y de la Cámara de Diputados a partir de 2027. Gane quien gane el balotaje, el Centrão seguirá siendo clave y la disputa con el Supremo Tribunal Federal se perfila como el gran conflicto de la próxima legislatura.

La captura del Estado. Crimen y economía ilícita en los gobiernos latinoamericanos

En América Latina, el crimen organizado ha dejado de ser solo un problema de seguridad pública para convertirse en un actor político capaz de moldear elecciones, capturar burocracias e incluso infiltrar fuerzas armadas y policiales. Frente a un diagnóstico dominado por el lenguaje de la seguridad, este artículo propone un desplazamiento de mirada y un marco analítico propio.
