

SWP-WebMonitor

Subsahara-Afrika

Nr. 56/2023

SWP-Informationsservices

Jürgen Rogalski, 15.09.2023

Der SWP-WebMonitor Subsahara-Afrika ist ein unentgeltliches, kompaktes Informationsprodukt mit ausgewählten Hinweisen auf aktuelle Stellungnahmen, Dokumente und Analysen zu allen (außen-) politisch relevanten Fragen und Entwicklungen der Region. Bei allen Titeln gibt es einen Link, meistens direkt zum Volltext. Grundlage der Erstellung ist ein überwiegend festgelegtes Set an Quellen: Webseiten, Blogs, Zeitschriften etc. Der Auswahl-Fokus liegt neben Dokumenten auf wissenschaftlichen bzw. wissenschaftlich basierten Beiträgen. Neben Titeln mit konkretem Länder- bzw. Regionalbezug werden auch solche berücksichtigt, deren Thematik relevant ist für die Region. Der WebMonitor wird i.d.R. ein- bis zweimal wöchentlich erstellt, nicht aber bei Abwesenheit des Bearbeiters.

Urban-Rural Geographies of Political Violence in North and West Africa

Steven M. Radil, Olivier Walther, Nick Dorward & Matthew Pflaum

"... assesses the relationship between population density and political violence within North and West Africa. We find that while most violence currently occurs in rural areas, it also exhibits a classic distance-decay effect, commonly occurring near urbanized places. Regional differences are evident as Jihadist-led violence is increasingly rural in West Africa while urban violence was more common in North Africa. ..."

Steven M. Radil, Olivier Walther, Nick Dorward & Matthew Pflaum

"... assesses the relationship between population density and political violence within North and West Africa. We find that while most violence currently occurs in rural areas, it also exhibits a classic distance-decay effect, commonly occurring near urbanized places. Regional differences are evident as Jihadist-led violence is increasingly rural in West Africa while urban violence was more common in North Africa. ..."
