

SWP-WebMonitor

Subsahara-Afrika

Nr. 57/2021

SWP-Informationsservices

Jürgen Rogalski, 03.09.2021

Der SWP-WebMonitor Subsahara-Afrika ist ein unentgeltliches, kompaktes Informationsprodukt mit ausgewählten Hinweisen auf aktuelle Stellungnahmen, Dokumente und Analysen zu allen (außen-) politisch relevanten Fragen und Entwicklungen der Region. Bei allen Titeln gibt es einen Link, meistens direkt zum Volltext. Grundlage der Erstellung ist ein überwiegend festgelegtes Set an Quellen: Webseiten, Blogs, Zeitschriften etc. Der Auswahl-Fokus liegt neben Dokumenten auf wissenschaftlichen bzw. wissenschaftlich basierten Beiträgen. Neben Titeln mit konkretem Länder- bzw. Regionalbezug werden auch solche berücksichtigt, deren Thematik relevant ist für die Region. Der WebMonitor wird i.d.R. ein- bis zweimal wöchentlich erstellt, nicht aber bei Abwesenheit des Bearbeiters.

> Konflikte / regionale Sicherheitspolitik / AU - APSA

Understanding Ad-Hoc Security Initiatives in Africa

Cedric H. de Coning, Andrew E. Yaw Tchie et al.

"... examines the rise of ad-hoc security initiatives (ASIs) as an established type of collective security mechanism. ASIs are intended to eliminate threats posed by non-state armed groups, and operate across the borders of participating countries to enable the pursuit of such groups. ASIs have emerged because existing African Peace and Security Architecture (APSA) mechanisms were not specific or responsive enough to meet this ongoing need. The Regional Cooperation Initiative for the Elimination of the Lord's Resistance Army, the Multinational Joint Task Force, and the G5 Sahel can all be categorised as ASIs. ..."
